TSXV:NSU

NORTH SHORE TO LIST ON THE OTCQB

North Shore Uranium Ltd. (TSX-V: NSU) (“North Shore” or the “Company”) is pleased to announce that its common shares will commence trading at the market open on March 19, 2026, on the Over-The-Counter QB Venture Market (“OTCQB”) in the United States. North Shore will trade under the symbol “NSURF” in addition to its primary listing on the TSX Venture Exchange under its existing trading symbol “NSU”.

Brooke Clements, President and CEO of North Shore stated: *“As the Company grows and expands its shareholder base, we believe that trading on the OTCQB will assist us in achieving more visibility, liquidity and accessibility to current and potential shareholders in the United States.”*

In addition, the Company has submitted an application to the Depository Trust and Clearing Corporation (the “DTCC”) to have the Company’s common shares eligible for delivery and depository services with the DTCC to facilitate electronic settlement of transfers of its common shares in the United States. Securities that are eligible to be electronically cleared and settled through the DTCC are considered “DTCC eligible”. This electronic method of clearing securities speeds up the receipt of stock and cash and thus accelerates the settlement process for investors and greatly reduces transactional costs for participating stock brokerages. Current and historical disclosure by North Shore can be found on the Company’s profile on www.sedarplus.ca.

ABOUT NORTH SHORE

The nuclear power industry is in growth mode as more nuclear power will be required to meet the world’s ambitious CO₂ emission-reduction goals and the needs of new power-intensive technologies like AI. New uranium deposits will be needed to meet a projected future uranium supply deficit. The Company is currently advancing uranium projects at Rio Puerco in the Grants Uranium District of New Mexico and Falcon and West Bear at the eastern margin of the Athabasca Basin in Saskatchewan. For information on Rio Puerco, Falcon and West Bear, respectively, see the following News Releases, [February 23, 2026](#), [October 14, 2025](#), and [October 23, 2025](#).

ON BEHALF OF THE BOARD

Brooke Clements,
President, Chief Executive Officer and Director

Forward-Looking Statements

This news release contains forward-looking statements. All statements, other than statements of historical fact that address activities, events, or developments that the Company believes, expects, or anticipates will or may occur in the future are forward-looking statements. These statements reflect management's current expectations based on information currently available and are subject to a number of risks and uncertainties that may cause actual results to differ materially from those discussed in the forward-looking statements. Forward-looking statements in this release include, but are not limited to the Company's belief that trading on the OTCBQ will achieve increased visibility, liquidity and accessibility to current and potential shareholders in the United States may not be realized; and other statements that are not historical facts. Forward-looking statements are frequently characterized by words such as "plan", "project", "appear", "interpret", "coincident", "potential", "confirm", "suggest", "evaluate", "encourage", "likely", "anomaly", "continuous" and variations of these words as well as other similar words or statements that certain events or conditions "could", "may", "should", "would" or "will" occur. These statements are subject to various risks and uncertainties that may cause actual results to differ materially from those anticipated or implied, including, but not limited to: the speculative nature of mineral exploration and development projects; the ability to obtain necessary permits and approvals; changes in project plans and parameters; variations in mineral grades and recovery rates; accidents, labour disputes and other risks of the mining industry; the availability of funding on terms acceptable to the Company; delays in obtaining governmental approvals or financing; fluctuations in metal prices including uranium, and other factors described in the Company's public disclosure documents. There may be other factors that cause actual results, performance, or achievements to differ materially from those anticipated or implied by the forward-looking statements. Any forward-looking statement speaks only as of the date on which it is made and, except as may be required by applicable securities laws, the Company disclaims any intent or obligation to update any forward-looking statement, whether as a result of new information, future events, or results or otherwise. Forward-looking statements are not guarantees of future performance and accordingly undue reliance should not be put on such statements due to the inherent uncertainty therein. Any forward-looking statements contained in this news release are expressly qualified in their entirety by this cautionary statement.
